

StallStash is a commercial restroom accessory that keeps important personal items clean and safe.

The sanitary conditions of commercial and public restrooms are more important than ever. StallStash is a restroom accessory that attaches easily to standard partitions and stalls. StallStash improves the overall function of a public restroom by keeping a visitor's personal items safe and protected from germs and bacteria. StallStash eliminates the cost and inconvenience of replacing a dropped or damaged phone or device. StallStash reduces the stress and worry of having a purse, wallet, laptop or briefcase stolen or left behind.
